

Get connected with www.airgas.com.

You'll save time by browsing through our comprehensive catalog of specialty gases, gas equipment, and safety products. With our powerful search and filtering capabilities, you'll find the right products in no time at all. Access to online product specifications and sales literature will help you compare and narrow your choices. And to save even more time, you can create your own private catalog of only those products that interest you.

You'll save money by making your procurement process more efficient. As you place orders quickly, easily, and at your convenience, you'll see transaction costs decrease and your satisfaction increase. There's no waiting and no faxing. Just enter your order online. You have round-the-clock access to account information so you'll get fast answers to important order, invoice, or payment questions.

At Airgas, you'll find a strong commitment to blending the benefits of innovative technologies with our extensive distribution network to give you the best business solutions—and eBusiness solutions—that meet your needs.

Unlimited ways to optimize your procurement process.

www.airgas.com gives you answers to questions when you want them, even when our offices are closed.

You can customize your search to meet your needs. Search our entire catalog or create a custom catalog of just the products you order. Manage multiple buyers and limit their access to site features. Use the approval tool to set spending limits on individual buyers and review orders before they are submitted to Airgas.

When you order through www.airgas.com, you receive the same pricing and service as you would with a phone or fax order. Your order goes directly into the Airgas system and to the location that regularly services your account, eliminating errors from re-keying orders. And, you get an e-mail order confirmation. www.airgas.com offers solutions that go well beyond online ordering. It gives you access to valuable information you can view, use to print invoices online, check whether an order has shipped, track cylinders, research products, access Material Safety Data Sheets and much more. Whether your business is small, large, or you have multiple locations nationwide, www.airgas.com makes doing business with Airgas easier.

Get Started...Now! Register online at www.airgas.com or contact your Airgas representative. We'll send you a user name and a password to access your account online. Or you can browse the catalog without registration.
