

A. 3M™ GVP Series Belt-Mounted PAPR

The 3M™ GVP is worn at the hip reducing the weight, pressure and view obstruction associated with face mounted PAPRs. The unique design makes it easy to assemble and use. This PAPR can be used with 3M™ H-series hoods and 3M™ Full Facepiece Respirators. All necessary components are listed below. Meets all applicable NIOSH requirements. Sold individually unless otherwise stated.

| Part Number | Description | Packaged |
|-------------|---------------------------------------|----------|
| 3MR GVP-1 | Complete Belt Mount Assembly | -- |

| 3MR GVP-113 | Flow Meter | -- |
| 3MR GVP-401 | Organic Vapor | 6/bx |
| 3MR GVP-402 | Acid Gas | 6/bx |
| 3MR GVP-440 | HEPA Filter | 8/bx |
| 3MR GVP-441 | Organic Vapor/HEPA | 6/bx |
| 3MR GVP-443 | Organic Vapor/Acid Gas/HEPA | 6/bx |
| 3MR GVP-405 | Formaldehyde | 6/bx |
| 3MR GVP-445 | Formaldehyde/HEPA | 6/bx |

A

B. North Continuous Flow Airline Hoods 85300 Series

The 85300 Series Type C Airline Hood offers superior protection against airborne contaminants. The Tyvek® hood lightweight design offers the worker excellent mobility and comfort. Non-fogging, wide vision lens provides the worker with a clear view of the work zone. Ratchet headgear assembly, belt clip, belt, and non-kinking breathing tube are also included. The optional vortex tube provides the worker with added comfort by warming or cooling the breathing air. NIOSH certified for use with hose length combinations up to 300', and may be used with either 3/8" or 1/2" diameter North hose. Made in USA. Sold individually.

| Part Number | Description |
|-------------|--|
| NOS 85301T | Airline Hood System |
| NOS 88600HV | Vortex Cooling/Heating Tube Hansen Couplers 3/8" |
| NOS 85302TA | Replacement Tyvek® Hood |
| NOS 886050H | 50' Airline hose Hansen coupler 3/8"ID |

NORTH

10-Minute

D. North Emergency Escape Breathing Apparatus

Available in both 5- and 10-minute bottles to provide safe, comfortable protection. The model 845 provides an average of 42 lpm (liters per minute) of air flow for five minutes, and the 850 offers 42 lpm for ten minutes. The lightweight cylinder is refillable, while the hood can be detached for cleaning or replacement. Air flows directly onto the lens to minimize fogging. A high visibility carrying bag makes it easy to find in an emergency situation. NIOSH approved. Sold individually.
